\$60,000 Bond Issue for Hamlin Schools Passes

Issuance of a \$60,000 bond issue to provide funds for completion and furnishing of two new school build- Will Andress ings and repairs on the High School | Receives Nicest building was authorized by taxpayers of Hamlin Consolidated Indepent School district in a special tion held here Tuesday. The e was 54 to 5.

Two other propositions also passed. The second proposition authorized the levying of a \$1.25 maintaince tax on the \$100 valuation and also provided further that the tax would never exceed that amount.

Third proposition provided that the district, as now constituted, would assume, pay off and discharge bonded indebtedness incurred prior to the boundry changes brought about by consolidation, the indebtedness including: Hamlin Independent School District Schoolhouse Bonds, Series 1946, dated March 1. 1946, bearing interest at the rate of three and one-half per cent per annum, now outstanding in the amount of \$124,000 maturing serially down the years 1947 to 1981, both inclusive; Hamlin Independent School District Refunding Bonds, Series 1941, dated December 1, 1941, bearing four per cent interest per annum now outstanding in the amount of \$127,-000 maturing serially throughout the vears 1943 to 1972, both inclusive; Neinda Common School District No. 27, Refunding Bonds, Series 1941, dated July 10, 1941, bearing interest at the rate of three and one-half per cent per annum, now outstanding in the amount of \$6,300 maturing serially throughout the years 1948 to 1956 both inclusive; Wise apel School District No. 55 Reding Bonds, Series 1946, dated April 10,1946, bearing interest, at

both inclusive. The \$60,000 bonds voted Tuesday will be paid off annually at the rate of \$1,000 until 1955 and \$2,000 annually from 1955 until 1981.

School officials say the funds to e derved from the sale of bonds voted this week will finish the work now underway and will allow for normal expected growth of the scholastic population. As stated last week, it is understood there will be no change in the tax rate or overall property evaluation. The district is said to be sound financial condition. The district now covers 251 square miles and has a valuation over \$4,000,000 an increase from 25 square miles and a valuation of slightly over \$2,000,000.

Cost of the elementary building is about \$150,000 and the primary building \$60,000. Both are expected to be completed for occupancy in September. Both buildings will be stuccoed.

Masonic Lodge **Elects Officers**

Officers for the coming Masonic year were elected at the regular y retiring Worshipful Master Joe stared meeting of Hamlin Lodge, A. F. & A. M., it has been announced

Simpson. Those named are J. W. Burgess, W. M.; E. M. Hames, S. W.; W. A. Norris, J. W.; E. C. Feagan, ereasurer and C. G. Green as the secretary and W. L. Cash tiler. 8he group has not yet announced apportive officers including the deacons, stewards,

chaplain, etc. Formal installation will be held on June 24.

Calvary Baptist Group Attending State BYPA Meeting

Rev. W. E. Nunn, pastor of the Calvary Baptist Church of Hamlin, accompanied a group of young people to a state convention of the Baptist Young Peoples Association held in San Antonio from Monday night through Wednesday of this week. They left here Monday morning and expected to arrive home Thursday.

In addition to the pastor, those going are Georgia Nunn, Juanez Branseum, Otis Fry and Wilma

Father's Day Gift

Will Andress, popular pop-corn stand operator of Hamlin was about the happiest father in the world on Sunday when he was presented a braille typewriter by his seven children for Father's Day

Mr. Andress is proudly telling his friends this week that he is now owner of the most modern typewriter of that type in the world. The gift was not a surprise as he also contributed, some money to the fund to purchase it.

Mr. Andress recently had a new pop-corn machine installed at his favorite spot in front of the Bluebonnet Cafe and is always on hand

to serve the kiddies and grownups. Two of the daughters, Mrs. Grace Holder of Los Angeles, California and Mr. and Mrs. Bill Dunham of Washington, D. C. have been here for a visit. Mrs. Andress left with them for California Wednesday to make a visit. Mr. and Mrs. Dunham are moving to that state from Washington.

Markel Badgers in the Taylor County town Tuesday afternoon. Trent won over Tuscola. Tuesday's victories ran their string to six wins anl one loss each. Hamlin lost to Trent and Trent was defeated by Rotan.

Last Friday afternoon the Pipers nosed out the Trent team 6 to 5 in a 10-inning battle. Trailing in the ninth Rowland rapped out a four-bagger to tie up the game and the Pipers took the fray in the tenth frame.

Merkel is next in line behind Hamlin and Trent with four wins and three losses.

Friday afternoon on the local diamond the Pipers face the Ro tan team, an aggregation they have defeated four times this season. Next Tue day afternoon they journey to Trent and Coach Howard says if they pass these barriers, the Pipers will be sure of a place in the playoff. In the league play, Rotan has lost five and won

Raythell Smith Now on Guam with Navy Air Corps

First Baptists ReceiveHammond Organ Thursday

Members of the First Baptist Church will be glad to know that the Hammond Electric organ, which has been on order for the local church for many months, arrived Thursday morning and was installed the same day. It will be used for the first time Sunday morning, Rev. John H. Osteen, pastor, stated.

Guest organist for the Sunday services will be Miss Patty Ray Boothe, 13-year-old accomplished musician from Sweetwater. She is a neice of Mrs. Teddy Russell of here, and has visited here many times.

The public is cordially invited to attend these services and hear the organ for the first time.

Father and Son FFA Banquet Great Success

Apyroximately 90 men and boys, including a number of special guests were present at the High School cafeteria Friday evening for the annual Father and Son Banquet, sponsored by the Hamlin chapter of Future Farmers of America. Everyone present declared that the meal and program prepared by the boys was really a great success.

A fried chicken dinner with all Tied for Lead in the trimmings, topped off with ice cream and cake, was served to the group. Most of them had "seconds", the platter when they filed out of

Cotton Loan Rate For 1947 Crop Set At 24.75c Pound

A cotton loan rate of 24.75 cents a pound for middling seven-eighths inch gross average weight average location applicable to the 1947 crop has been announced, the U.S. Department of Agriculture states in its Mrs. Tate May brought a group of latest Weekly Cotton Market Re-

The May parity price of cotton, the review continues, declined for vis Young, Aubrey Carpenter, Rob- Farmers of the Hamlin territory, Scurry County farmers, 1,400 strong. should take note that the decline in parity price resulted from lower prices for food, feed, household supplies and seed-which were not offset by increased prices for building materials and furniture.

Spot cotton advanced in 10 spot markets of the Southwest by \$2.50 a bale. Spot prices were up from 40 to 70 points as gains were made each day during the past week.

Price in Dallas last Thursday was 36.65 cents a pound compared with 28.15 cents a year ago.

Inquiries, the review points out. from domestic mills increased and some buying of small lots for prompt shipment was done. Sales of new crop cotton increased slightly but was mostly for delivery through September. Export buying was reported to be very small which was due largely, according to trade sources, to the shortage of dollar exchange in many foreign countries.

Cotton made favorable growth in Central and Southern Texas, with considerable blooming and setting of fruit in North Texas. Planting and replanting is virtually complete in Jones and other counties of West Texas.

In Dallas 5,644 bales were reported sold during the past week, compared with 6,353 bales the previous week. Buyers report to the Department of Agriculture that it is becoming increasingly difficult to purchase cotton of strict low middling and better grades, the review con-

U. S. Treasury Departmen Oil Mill Industry May See Drastic **Method Changes**

"The oil mill industry is on the threshold of change—a very drastic change—that will affect all cotton producers," Ray Grisham of Abilene told people of this vicinity who attended the Texas Cottonseed Crushers fifty-third annual convention Friday at Corpus Christ.

"If the industry does not prepare to meet this change, it will only be a few years until someone not connected with the present operators will steal the industry by processing cottonseed in a more efficient manner," Grisham declared.

Pointing out that the method of processing cottonseed is basically the same as it was 30 years ago, Grisham said "the extraction of oil from cottonseed by solvents is here." He predicted the operating personnel of solvent plants will consist principally of young chemical engineers.

"These young men, with proper encouragement, will bring new ideas to the processing of cottonseed. Other than extraction of oil, the entire process will be chemical rather than mechanical," the Abilene man stressed.

Attending Range Course

Grasshoppers Killed Now May Save Fields

An early start on grasshopper control is being encouraged now because the insects right now are young and easy to kill. They are bunched together after the hatch and therefore very little bait will kill them; they are reported to be still on the edge of fields and have not as yet done any damage to row

County farmers are urged to contact the county agent for a suitable poison bran bait.

Insects are already showing up now in Erath, Archer and other countes. Fifty dead hoppers now, say crop observers, will be worth 200 dead hoppers 30 days from now.

Agricultural Leaders Urge Lending Agencies to Tighten Farm Loan Plan And Meal Supply

Although Farmers & Merchants product prices return to normal. National Bank of Hamlin and other banks serving the Hamlin trade area are reported to be conservatve in all its phases of banking, and are said to be way above the average for banks over the country, the U. S. Department of Agriculture is ready to ask banks and credit agencies to tighten down on farm loans.

So reveals a Washington dispatch, which declares the Department of Agriculture is acting upon President Truman's express concern over a nation-wide boom in land prices. The department reports, in a statement, that farm prices have increased 92 per cent over pre-war willing to pay in the expectation of

Cottonseed Cake About Average

Supplies of oilseed cake and meal urge banks, insurance companies available for feed in Jones and in and other credit institutions to neighboring counties through next adopt the government's own rule on September are expected to be about farm loans. The government con- the same as a year ago, The Herald trolled federal land banks, as pros- is informed by the U.S. Department

Cottonseed oil in 1946 again was out, follow the rule of lending not the leading oil used in making marmore than 65 per cent of what they garine, one of the important food products that help to give value to cotton farmers' seed.

Are you wasting feed and power by too much grinding, Mr. Hamlin Area Farmer and Rancher? M. W. Mudrow, Arkansas Extension animal husbandman, issues a timely warning against grinding grains and roughages too much. Coarsely ground grain and chopped roughage are more palatable, too.

Increasing mechanization of cotton and other crops will make agriculture more productive and give the world more goods at lower cost. A. L. Ward of the National Cottonseed Products Association predicted at the Oklahoma Experiment Station Feeders' Day.

Heavy application of nitrogen fertilizer to poor land not only increased the yield of corn, but also increased the protein content, a fiveyear study at Purdue University shows. The protein content increased from 9.9 per cent to 12.3 per cent in these tests.

Creep feeding calves, often the most profitable way to produce beef, narrowing profit margins and feed culture concludes.

Vets and Families of U. S. 43% in Census

War veterans and their families in this area and over the country now make up one-third of the population of the nation, and within five years will account for 43 per

So reports the Veterans Administration, in a region to Herald readers. After five more years, unless new wars change the rate, the veteran-family population will level off and finally decline.

The Veterans Administration defines a veteran's family as a family unit living together and headed by a veteran-which might include a wife, children, parents and relatives by blood, marriage or adoption. Not included in calculations, however, are dependents of deceased veterans or parents of a veteran not living in the same household with him.

The driver of this truck lost control of it because its brakes were defective. It ran up on the sidewalk and plowed through the side of a house, killing two persons. In addition to the terrible toll of motor vehicle deaths and injuries last year-33,500 killed, 1,150,000 injured -the total economic waste amounted to almost two billion dollars. Brakes, then, lights, windshield wipers and other safety features should be periodically checked as a safeguard against accidents. A recent nationwide testing program disclosed mechanical defects in one out of every three cars examined.

by Jeanelle Bryant

Better start thinking of some good excuses for not making those favorite pies or cakes, ladies, since the sugar rationing has ended. We have used that sugar shortage excuse for the past five years, and it worked perfectly, but from now on we will have to do some fast thinking. Of course, we who work in town can say we haven't the time and maybe convince our hus and that it is true, but you who labor so faithfully at home will never make him understand that you never have a moment of idleness They will never be able to figure out just what the wives do with all their time.

Amough we weren't eligible to ettend, from all reports, the Father-Son banquet given by the vocational agriculture teacher, T. C. Blankenship and his FFA boys, was a huge success. Much credit it due Mr. Blankenship for the splendid work he is doing with re young men, molding their ves into something worthwhile

d. It must take a great of patience to work so long a faithfuly with such a large roop of grow in boys, who are at that particularly difficult age. It is a job in which he can take great pride in the assurance that it is one of the utmost importance.

Career Woman!

MEET the greatest career woman of all! She doesn't manage a business, write novels, paint portraits, or sing over the radio. But her job's big and it's important-she

What a job that is! In a year she washes more than 6 tons of dishes, cooks more than 1,000 meals, wades through mountains of laundry, trundles her vacuum cleaner across acres and acres of rugs!

The more Mom depends on electric service, the less work is in her housework And how little electric service costs! A penny's worth a day will rescue Mom from the drudgery of dishwashing. A few more pennies will cook her meals. Electricity will help her wash and iron for less weekly than the cost of a bar of soap.

And when Mom balances her budget, she's bound to note that electricity is one of its smallest items. Actually, the average family now gets twice as much electricity for its money as it did about 20 years ago. This bargain comes to Mom - and to

MODERN LIVING CLAIMS VICTIMS

SOFT, refined foods and lack of exercise are responsible for increasing thousands of constipation victims. Intestinal muscles become sluggish, waste matter accumulates and gas is formed. Often there is a tired, restless, listless feeling. It's cases like this that the new improved ADLERIKA is designed to help. This scientifically compounded Tone-Up laxative is quickly bsorbed by the gastro-intestinal system . . . gas pressure is relieved and waste matter is moved gently through the digestive canal. When you eat well and digest your food well, you'll find a new joy in living. Order a bottle of ADLERIKA today.

Caution: use only as directed.

Check Points for Dairy Herdsmen In County Given

Five check points that are important to Hamlin area's 810 dairy herd owners are listed by H. C. Stanley, county agent, as follows: Each dairy husbandman will find

a check-up of these items will boost Water Supply-Cows need more water at this time of the year. They will drink more if the water

is clean, cool and conveniently locat-

late spring and summer months ized education, advancement in Souring can be stopped by producing grade and commissioning in the clean milk and cooling it to 55 de-Officers' Reserve Corps and in grees fahrenheit within two hours the Regular Army after milking.

Horn Flies-Pests that occupy a low's time when she should be prot he e with his grandparents and ducing milk. Horn flies can be conother relatives. Richard attended trolled by spraying back, sides, legs and bellies with one pound of 50 per cent wettable DDT powder in 25 gallons of water.

Good, Green Grass-A cheap feed that always brings a rise in milk production and cuts out many herd health problems. Dairymen can make green feed last longer by mow-

ing weeds and alternating grazing. Kind Treatment-A necessity in the management of dairy cows, now and throughout the year. Fowler says rough treatment and high production are seldom found on a dairy farm anywhere.

Jones County Tries Poison On Grashoppers

n an effort to combat hoardes of grasshoppers which are said to be treatening cotton and feed crops in several pants of Jones County, 18,000 pounds of poisoned bait was trucked in from Graham last week. A bait-mixing station has been located at the Co-Op Gin in Anson.

The baitt materials are furnished by the United States Department of Agriculture., Bureau of Entomology and Plant Quarantine and the Jones County Commissioners Court through County Agricultural Agent H. C. Starley's of-

Farmers having grasshopper troubles may get poison ait materials on Monday, Wednesday and Fridaps from 8:00 a m to. 5:00 p m. There is a small charge for mixing and hanlling of the poison and farmers must furnish their own sacks.

Areas which are already badly infested are the Chittenden Ranch between Hamlin and Anson, the Union comunity about nine mile; southwest of Anson ,the Lueders comunity, and the California Creek

Tanks, Nothing Down 3 Years to Pay **Appliances, Third Down** 1 Year to Pay

AND AMERICA'S BANKS announce the Bond-a-Month Pian

An easy, automatic way to buy U.S. Savings Bonds for Americans who cannot take advantage of the Payroll Savings Plan.

FOR MILLIONS of Americans, the Payroll Savings Plan has proved the perfect way to save.

Its ability to make saving a regular, continuous, automatic procedure has enabled these millions of people to accumulate billions of dollars in U.S. Javings Bonds-money which, for the most part, they would not otherwise have saved.

Now, through the co-operation of America's banks. all the advantages of the Payroll Plan are being made available to people NOT on payrolls—through the new Bond-a-Month Plan for buying U.S. Savings Bonds.

If you have a checking account -here is your plan!

The mechanics of the new Plan are simple.

You go to the bank in which you keep a checking account. You authorize the bank to buy for you, at monthly intervals, a U.S. Savings Bond. From then on, the bank buys the Bond regularly, sends it to you, and debits your account for the purchase price. Plan-soon.

Suppose you want to buy a \$100 E Bond every month. You simply sign a card authorizing your bank to deduct \$75 each month from your account. After that, the Bond is bought, registered in your name, and sent to you—automatically.

Can you match these investments—anywhere?

As your banker will tell you, no other security of comparable safety will give you as good a return on your money as U.S. Savings Bonds.

In addition, these Bonds can be quickly turned into cash—without loss—in case of emergency. Any man who has any savings ought to have at least a substantial part of them in U.S. Savings Bonds.

The new Bond-a-Month Plan makes accumulating money easy, safe, and above all, sure.

The Plan makes it easy for you to arrange a steady income for yourself in any amount you choose, starting 10 years from today. \$75 a month put into Bonds now will give you \$100 a month, beginning in 1957.

For a financially sound future, for both your country and yourself, see your bank and start buying U.S. Savings Bonds through the Bond-a-Month

Save the easy, automatic way — with U.S. Savings Bonds

PAUL BRYAN LUMBER CO.

AMAZING ISN'T IT?

Typical early measurements of weight were the amount a team of oxen could just budge, the amount a man could lift, the most a woman could hold at arm's length. Amazing isn't it? Yet inexact ideas have flourished, right on down to modern times. Take fresh produce, for instance, no two heads of lettuce are

ever exactly alike; two stalks of celery may look alike, yet one stalk may have as much as 40% more celery in it than the other—that's why Safeway sells produce by the pound. You can buy just exactly the amount you want and get FULL VALUE

\$60,000 Bond Issue for Hamlin Schools Passes

Issuance of a \$60,000 bond issue to provide funds for completion and furnishing of two new school buildngs and repairs on the High School building was authorized by taxpayers of Hamlin Consolidated Indepent School district in a special ction held here Tuesday. The was 54 to 5.

Two other propositions also passed. The second proposition authorized the levying of a \$1.25 maintaince tax on the \$100 valuation and also provided further that the tax would never exceed that amount.

Third proposition provided that the district, as now constituted, would assume, pay off and discharge bonded indebtedness incurred prior to the boundry changes brought about by consolidation, the indebtedness including: Hamlin Independent School District Schoolhouse Bonds, Series 1946, dated March 1. 1946, bearing interest at the rate of three and one-half per cent per annum, now outstanding in the amount of \$124,000 maturing serially down the years 1947 to 1981, both inclusive; Hamlin Independent School District Refunding Bonds, Series 1941, dated December 1, 1941, bearing four per cent interest per annum now outstanding in the amount of \$127 .-000 maturing serially throughout the rears 1943 to 1972, both inclusive; Veinda Common School District No. 27. Refunding Bonds, Series 1941, dated July 10, 1941, bearing interest at the rate of three and one-half per cent per annum, now outstanding in the amount of \$6,300 maturing serially throughout the years 1948 to 1956 both inclusive; Wise apel School District No. 55 Reding Bonds, Series 1946, dated April 10,1946, bearing interest, at the rate of two and one-half per an-

the now outstanding in amount of \$7,500 maturing serially throughout the years 1948 to 1962, both inclusive. The \$60,000 bonds voted Tuesday

will be paid off annually at the rate of \$1,000 until 1955 and \$2,000 annually from 1955 until 1981.

School officials say the funds to e derved from the sale of bonds voted this week will finish the work now underway and will allow for normal expected growth of the scholastic population. As stated last week, it is understood there will be no change in the tax rate or overall property evaluation. The district is said to be sound financial condition. The district now covers 251 square miles and has a valuation of over \$4,000,000 an increase from 25 square miles and a valuation of

slightly over \$2,000,000. Cost of the elementary building is about \$150,000 and the primary building \$60,000. Both are expected to be completed for occupancy in September. Both buildings will be stuc-

Masonic Lodge **Elects Officers**

Officers for the coming Masonic rear were elected at the regular y retiring Worshipful Master Joe stated meeting of Hamlin Lodge, A. Raythell Smith F. & A. M., it has been announced

Those named are J. W. Burgess, W. M.; E. M. Hames, S. W.; W. A. Norris, J. W.; E. C. Feagan, ereasurer and C. G. Green as the secretary and W. L. Cash tiler. 8he group has not yet announced appoptive officers including the deacons, stewards,

chaplain, etc. Formal installation will be held

on June 24.

Calvary Baptist Group Attending State BYPA Meeting

Rev. W. E. Nunn, pastor of the Calvary Baptist Church of Hamlin, accompanied a group of young people to a state convention of the Baptist Young Peoples Association held in San Antonio from Monday night through Wednesday of this week. They left here Monday morning and

expected to arrive home Thursday. In addition to the pastor, those going are Georgia Nunn, Juanez Branscum, Otis Fry and Wilma

Will Andress Receives Nicest Father's Day Gift

Will Andress, popular pop-corn stand operator of Hamlin was about Osteen, pastor, stated. the happiest father in the world on Sunday when he was presented a braille typewriter by his seven chil-

dren for Father's Day . Mr. Andress is proudly telling his friends this week that he is now owner of the most modern typewriter of that type in the world. The gift was not a surprise as he also contributed, some money to the fund to purchase it.

Mr. Andress recently had a new pop-corn machine installed at his favorite spot in front of the Bluebonnet Cafe and is always on hand

to serve the kiddies and grownups. Two of the daughters, Mrs. Grace Holder of Los Angeles, California and Mr. and Mrs. Bill Dunham of Washington, D. C. have been here for a visit. Mrs. Andress left with them for California Wednesday to make a visit. Mr. and Mrs. Dunham are moving to that state from Washington.

Hamlin - Trent Baseball Race

Coach L. B. (Red) Howard's the lunch room. Hamlin High School Pied Piper tie with the Trent Hgh School nine group in their opening and closing following their 19 to 4 rout of the ritual and introduced their advisor, Markel Badgers in the Taylor T. C. Blankenship, who introduced County town Tuesday afternoon. Trent won over Tuscola. Tues. day's victories ran their string to six wins anl one loss each. Hamlin lost to Trent and Trent was defeated by Rotan.

ers nosed out the Trent team 6 to 5 in a 10-inning battle. Trailing in the ninth Rowland rapped out a four-bagger to tie up the game and the Pipers took the fray in the tenth frame.

Merkel is next in line behind Hamlin and Trent with four wins to accomplish anything worthwhile and three losses.

Friday afternoon on the local diamond the Pipers face the Ro tan team, an aggregation they have defeated four times this season. Next Tue day afternoon they journey to Trent and Coach Howard says if they pass these barriers, the Pipers will be sure of a place in the playoff. In the league play, Rotan has lost five and won

Now on Guam with Navy Air Corps

Raythell Smith, son of Mr. and Mrs. E. G. Smith, has written to his parents that he is now on the island of Guam. He is in the U.S. Navy, having joined in January. He received his boot training at San Diego, California.

He was here April 14 to 22 on boot leave, and on reporting back he was soon sent overseas, arriving at Guam He will be stationed there for the next year or 18 months, assigned to the Navy Air Corps as an aircraft machinist's mate.

Cotton Loan Rate For 1947 Crop Set At 24.75c Pound

A cotton loan rate of 24.75 cents a pound for middling seven-eighths inch gross average weight average location applicable to the 1947 crop has been announced, the U.S. Department of Agriculture states in its Mrs. Tate May brought a group of latest Weekly Cotton Market Re-

> The May parity price of cotton, the review continues, declined for Scurry County farmers, 1,400 strong. should take note that the decline in parity price resulted from lower prices for food, feed, household supplies and seed-which were not offset by increased prices for building materials and furniture

Spot cotton advanced in 10 spot markets of the Southwest by \$2.50 a bale. Spot prices were up from 40 to 70 points as gains were made each day during the past week.

Price in Dallas last Thursday was 36.65 cents a pound compared with 28.15 cents a year ago.

Inquiries, the review points out, from domestic mills increased and some buying of small lots for prompt shipment was done. Sales of new crop cotton increased slightly but was mostly for delivery through September. Export buying was reported to be very small which was due largely, according to trade sources, to the shortage of dollar exchange in many foreign countries.

Cotton made favorable growth in Central and Southern Texas, with considerable blooming and setting and Mrs. Ivy Dean of San Angelo; of fruit in North Texas. Planting and replanting is virtually complete in Jones and other counties of

In Dallas 5,644 bales were reported sold during the past week, compared with 6,353 bales the previous week. Buyers report to the Department of Agriculture that it is becoming increasingly difficult to purchase cotton of strict low middling and better grades, the review con-

May See Drastic **Method Changes**

threshold of change-a very drastic change—that will affect all cotton producers," Ray Grisham of Abilene told people of this vicinity who attended the Texas Cottonseed Crushers fifty-third annual convention Friday at Corpus Christ.

"If the industry does not prepare to meet this change, it will only be a few years until someone not connected with the present operators will steal the industry by processing cottonseed in a more efficient manner," Grisham declared.

Pointing out that the method of processing cottonseed is basically the same as it was 30 years ago, Grisham said "the extraction of oil from cottonseed by solvents is here." He predicted the operating personnel of solvent plants will consist principally of young chemical engineers.

"These young men, with proper encouragement, will bring new ideas to the processing of cottonseed. Other than extraction of oil, the entire process will be chemical rather than mechanical," the Abilene man stressed.

Grasshoppers Killed Now May Save Fields

An early start on grasshopper control is being encouraged now because the insects right now are young and easy to kill. They are bunched together after the hatch and therefore very little bait will kill them; they are reported to be still on the edge of fields and have not as yet done any damage to row

County farmers are urged to contact the county agent for a suitable poison bran bait

Insects are already showing up now in Erath, Archer and other countes. Fifty dead hoppers now, say crop observers, will be worth 200 dead hoppers 30 days from now.

Agricultural Leaders Urge Lending Agencies to Tighten Farm Loan Plan

National Bank of Hamlin and other banks serving the Hamlin trade area are reported to be conservatve in all its phases of banking, and are said to be way above the average for banks over the country, the U.S. Department of Agriculture is ready to ask banks and credit agencies to tighten down on farm loans.

So reveals a Washington dispatch, which declares the Department of Agriculture is acting upon President Truman's express concern over a nation-wide boom in land prices. The department reports, in a statement, that farm prices have increased 92 per cent over pre-war willing to pay in the expectation of

Cottonseed Cake And Meal Supply About Average

Supplies of oilseed cake and meal urge banks, insurance companies available for feed in Jones and in and other credit institutions to neighboring counties through next adopt the government's own rule on September are expected to be about farm loans. The government con- the same as a year ago, The Herald trolled federal land banks, as pros- is informed by the U.S. Department of Agriculture.

Cottonseed oil in 1946 again was out, follow the rule of lending not the leading oil used in making marmore than 65 per cent of what they garine, one of the important food products that help to give value to cotton farmers' seed.

Are you wasting feed and power by too much grinding, Mr. Hamlin Area Farmer and Rancher? M. W. Mudrow, Arkansas Extension animal husbandman, issues a timely warning against grinding grains and roughages too much. Coarsely ground grain and chopped roughage are more palatable, too.

Increasing mechanization of cotton and other crops will make agriculture more productive and give the world more goods at lower cost, A. L. Ward of the National Cottonseed Products Association predicted at the Oklahoma Experiment Sta-

tion Feeders' Day. Heavy application of nitrogen fertilizer to poor land not only increased the yield of corn, but also increased the protein content, a fiveyear study at Purdue University shows. The protein content increased from 9.9 per cent to 12.3 per cent in these tests.

Creep feeding calves, often the most profitable way to produce beef, offers special advantages this year, says W. R. Tyrrell of Tennessee Extension Service. This is because of narrowing profit margins and feed lot costs, the Department of Agriculture concludes.

Vets and Families of U. S. 43% in Census

War veterans and their families in this area and over the country now make up one-third of the population of the nation, and within five years will account for 43 per

So reports the Veterans Administration, in a region to Herald readers. After five more years, unless new wars change the rate, the veteran-family population will level off and finally decline.

The Veterans Administration defines a veteran's family as a family unit living together and headed by a veteran-which might include a wife, children, parents and relatives by blood, marriage or adoption. Not included in calculations, however, are dependents of deceased veterans or parents of a veteran not living in the same household with him.

The driver of this truck lost control of it because its brakes were defective. It ran up on the sidewalk and plowed through the side of a house, killing two persons. In addition to the terrible toll of motor vehicle deaths and injuries last year—33,500 killed, 1,150,000 injured -the total economic waste amounted to almost two billion dollars. Brakes, then, lights, windshield wipers and other safety features should be periodically checked as a safeguard against accidents. A recent nationeide testing program disclosed mechanical defects in one out of every three cars examined.

Slacks For **Casual Comfort**

Tailored Right Priced Right

In the mood for Summer sports—handsomely tailored slacks in a happy variety of top quality fabrics, weaves and colors. Straight run of sizes.

Seven hundred cooperatves, public power districts and public utility districts in 42 states are members of the National Rural Electric Cooperative Association. All of them are owned by the consumers they serve, and all are required to repay loans

Tom E. Craddock, manager of B-K Electric Cooperative at Seymour, and secretary of the city of Seymour, was elected president of the association, succeeding J. C. Nichols of Cody, Wyoming, rancher. Ben Jaspers of Steamboat Rock, Iowa, farmer, became vice president. As indicated by the wide selection

of speakers on the National Rural Electric Cooperative Associaton's program, delegates to the convention were interested in broad technical and economic problems conncted with the electrification of rural areas. Government and business executives, congressmen, scientists and the association's officials addressed delegates. Nine committees proposed resolutions which were passed by the convention, ranging from sharp criticism of "false economy" in Congress, where drastic slashes in the Department of Interior's power program has been proposed, to approval of a retirement program for system employees.

In a highlight of the convention program, delegates heard two outstanding atomic scientists give their views of peace-time applications of atomic power, and warnings that atomic wars will be "catastrophic." Dr. Leo Szilard, University of Chicago biophysicist and co-discoverer of one of the essential links to production of the atomic bomb, pointed out that production of electric power with atomic energy would be economical where hydroelectric plants are not possible. Dr. Szilard predicted that future atomic warfare would utilize radio active materials which would not damage cities "but the men and women inside of the cities would not remain alive."

The other scientist on NRECA's program was Dr. Limus C. Pauling nology, who repeated Dr. Szilard's ance warnings of the awful effects of an atomic war. Speaking of peacetime applications, Dr. Pauling predicted: "Power plants will be in existence before long and operating." Comparing the cost of uranium for fice Box 1641. atomic energy with coal for steam generation of electricity, Dr. Pauling declared, "It is essentially nothing compared to the cost of coal."

Margie Ruth Halmark spent last week-end in Rule.

Uncle Sam Says

THE HAMLIN HERALD, HAMLIN, TEXAS, JOHES

All of us would like to put dad on a pedestal on Father's Day to show him how we feel about him the year round. I like to think of all American fathers in the role of Minute Men, standing guard over the security of their families. Certainly they could do no better than to assure the happiness of themselves and their homes than by buying United States Savings Bonds regularly.

Two automatic bond buying plans are available now. If dad is on a payroll, the Payroll Savings Plan will assure him days of ease wher he gets ready to retire. If dad is a professional man or self-employed he can use his checking account to

buy a bond a month.

HAMLIN, TEXAS

tareer woman:

MEET the greatest career woman of all! She doesn't manage a business, write novels, paint portraits, or sing over the radio. But her job's big and it's important-she runs a home!

What a job that is! In a year she washes more than 6 tons of dishes, cooks more than 1,000 meals, wades through mountains of laundry, trundles her vacuum cleaner across acres and acres of rugs!

The more Mom depends on electric service, the less work is in her housework. And how little electric service costs! A penny's worth a day will rescue Mom from the drudgery of dishwashing. A few more pennies will cook her meals. Electricity will help her wash and iron for less weekly than the cost of a bar of soap.

And when Mom balances her budget, she's bound to note that electricity is one of its smallest items. Actually, the average family now gets twice as much electricity for its money as it did about 20 years ago. This bargain comes to Mom - and to you, too-through the practical experience of your friends and neighbors in this company, under sound local businessmanagement.

MODERN LIVING CLAIMS VICTIMS

SOFT, refined foods and lack of exercise are responsible for increasing thousands of constipation victims. Intestinal muscles become sluggish, waste matter accumulates and gas is formed. Often there is a tired, restless, listless feeling. It's cases like this that the new improved ADLERIKA is designed to help. This scientifically compounded Tone-Up laxative is quickly bsorbed by the gastro-intestinal system . . . gas pressure is relieved and waste matter is moved gently through the digestive canal. When you eat well and digest your food well, you'll find a new joy in living. Order a bottle of

Horn Flies-Pests that occupy a low's time when she should be prot he e with his grandparents and ducing milk. Horn flies can be controlled by spraying back, sides, legs and bellies with one pound of 50 per cent wettable DDT powder in 25 gallons of water.

Good, Green Grass-A cheap feed that always brings a rise in milk production and cuts out many herd health problems. Dairymen can make green feed last longer by mowing weeds and alternating grazing.

Kind Treatment-A necessity in the management of dairy cows, now and throughout the year. Fowler says rough treatment and high production are seldom found on a dairy farm anywhere.

Jones County Tries Poison On Grashoppers

n an effort to combat hoardes of grasshoppers which are said to be treatening cotton and feed crops in several parts of Jones County, 18,000 pounds of poisoned bait was trucked in from Graham last week. A bait-mixing station has been located at the Co-Op Gin in Anson.

The baitt materials are furnished by the United States Department of Agriculture., Bureau of Entomology and Plant Quarantine and the Jones County Commissioners Court through County Agricultural Agent H. C. Starley's of

Farmers having grasshopper troubles may get poison ait materials on Monday, Wednesday and Fridaps from 8:00 a m to. 5:00 p m. There is a small charge for mixing and hanlling of the poison and farmers must furnish their

Mr. and Mrs. Jack Johnson and family from Borger visited last week

Met some folks last week at the hospital in Rotan who have been reading our column for years but had never seen the scribe, and its so funny why folks that don't know us has got the old boy figured out as a elderly man. We some times wonder if the column seems ancient. Guess we are going to have to run our photograph with our column in order to keep the record straight. No folks, if we ever get rid of these cruches-we will be lke a sixteen

"Our thought for today: Don't wait until you are deep in trouble before you ask for mercy."

Farm Markets Generally Strong Mrs. C. A. McHone and daughter, During Week

Sour west farm markets remained generally firm to strong last week, but easiness cropped up on some types or classes of nearly for Oklahoma to be at the bedside all commodities, according to reof a sister who recently underwent ports made to The Herald by the Production and Marketing Admin istration, United States Depart ment of Agriculture.

Movement of new crop wheat, ats, and barley had gotten well under way and trade sources expected sorghums to join the parade in two or three weeks. Wheat prices sagged steadily, and lost about 20 cents per bushel, closing at \$2.25 Friday. Corn and sorghums advanced several cents, as

Feed markets showed a stronger tone last week, with higher prices for cilseed meals and corn feeds.

Cotton scored net advances again last week despite late easiness. Good spot demand for the better grades brought only scant

Eggs remained firm last week, while pcultry held about steady with declines of the week before. At Dallas and Fort Worth, heavy hens brought 22 to 25 cents per

Cattle sold generally strong to \$1 or more higher last week, but fice will be open from 10:00 a. m. in easiness developed on lower grade the morning to 12:04 noon and 2:00 cows at San Antonio, and on lower p. m. in the evening to 6:00 for digrades of all classes at Fort Worth. agnostic treating and surgery. He

yearlings brought \$14 to \$20 at Houston, while medium to good kinds realized \$19 to \$23.50 at the Fort Worth market. San Antonio brought medium steers at \$21 to \$23.35. Oklahoma City moved the good and choice steers at \$24.50 to \$25.50.

PAUL BRYAN LUMBER CO.

AMAZING ISN'T IT?

Typical early measurements of weight were the amount a team of oxen could just budge, the amount a man could lift, the most a woman could hold at arm's length. Amazing isn't it? Yet inexact ideas have flourished, right on down to modern times. Take fresh produce, for instance, no two heads of lettuce are

ever exactly alike; two stalks of celery may look alike, yet one stalk may have as much as 40% more celery in it than the other—that's why Safeway sells produce by the pound. You can buy just exactly the amount you want and get FULL VALUE
